

# Mehan Eye

Dear Patient,

Thank you for selecting Mehan Eye for your eye care. We are committed to providing quality eye care. Under the patient forms section of our website you will find a patient profile form and a medical history form to complete prior to your appointment. Bring those forms with you to the appointment. Also bring the following:

- 1. A current list of all of your medication and the dosages.**
- 2. Any and all insurance cards so that we may make copies and correctly bill your insurance.**
- 3. A photo ID.**
- 4. A referral if your insurance requires it.**

Your first visit at Mehan Eye will consist of a complete eye exam. The initial visit usually lasts from 1 to 1.5 hours, but may vary in length depending on the diagnosis made by your doctor. Your eyes may be dilated during this visit and we recommend you bring a pair of sunglasses to protect your eyes from the sun. You may wish to have someone accompany you.

A map and picture of our building can be printed under the directions link on our website. If you need more information please feel free to contact our office. We look forward to seeing you.

Thank you,

The Staff at Mehan Eye
